

Jean-Colas PRUNIER Founder and Product Architect of PocketStudio

General information about the lecture Title of lecture: The power of real-time collaborative filmmaking

Abstract of the lecture: PocketStudio is designed to allow filmmakers to easily create, play, and stream 3D animation sequences in real time using real-time collaborative editing, a unified workflow, and other real-time technologies, such as augmented reality. In this lecture, we will give a live demo of PocketStudio and speak about the benefits of this technology.

General information about your workshop

Title of workshop:

Create a short movie with others in real-time and watch it live on your phone!

Abstract of the workshop: PocketStudio is the first digital content creation tool allowing several users to work together on the same 3D animation project and see each other's changes with real-time feedback. A sort of Google Docs applied to the creation of movies. In this workshop you will have a chance to explore how it feels to create movies with others in real-time using PocketStudio authoring app and augmented reality.
