"Plateau Projet"

09:50 am - 10:30 am

12 ABROAD STREET

12 Abroad St is a text-based RPG that draws from micro-computer RPG games, almost entirely consisting of interface. You play as someone who has to reluctantly attend a high school reunion party in their childhood city. They rediscover these streets they were sure to remember, getting lost while trying to find their way to the 12 Abroad St, where the party is happening. Actions and choices rely on using, finding, discarding or combining words, which are collected through exploration, just like items. It's an invitation to reflect on language, discrepancy and on the search for meaning and identity in a world that does not always make sense.

AMONGST THE THORNS

Amongst the Thorns is a 3rd person survival horror game inspired by folkloriques representations from ancient Europe. Chased by your own family and trying to escape the cult you grew into, survive and avoid folkloric monsters as you play Abigael, a young woman carrying her cursed girlfriend who has been transformed into a basket.

YUREI

Yūrei is a psychological horror game set in a manga's haunted pages. Play as Jun, a mangaka trapped inside their own creation and forced to continue the story. Play inside and outside the panels, turn the pages to change their outcome and navigate through the remnants of your troubled past. It's up to your resilience and ingenuity to fight against the manga's will and escape its curse.

ESCAPASTAMP

Escapastamp is a co-op adventure game where you and your friends must collect stamps by uncovering secrets and achievements in order to make your vacation last forever!

Every day, your team is dropped in a random location on a small open-world with the bare minimum to survive the day! From there, every action and interaction may unlock an achievement!

Fight your friends, run around, jump off a cliff... Any trick may do but remember, if you all end up at the nurse's office or if you don't collect enough stamps :

THE HOLIDAY IS OVER !
